#### **CURRENCY**

The currency depreciated against the greenback to trade at **KES 147.14** from **KES 147.01** in the previous session. On a year-to-date basis, the shilling has depreciated by **19.26%** as compared to a **9.04%** depreciation for the year ended December 2022. We expect the local currency to continue coming under pressure due to the increased dollar demand from importers on the back of the prevailing high global commodities prices, and reduced dollar inflows from key export-earning sectors. Additionally, the depreciation is driven by the continued strengthening of the dollar against emerging and frontier markets currencies.

As of September 15<sup>th</sup> , 2023 , CBK's usable foreign exchange reserves stood at **USD 7,067 Million (3.8 months of import cover).** 

## **MONEY MARKET**

Liquidity in the money markets tightened with the interbank rate increasing to 12.07%, compared to 12.06 % recorded previously.
